THE HERALD.

350 P. BARRETT, Editor.

WEDNESDAY..... MARCH 12, 1879.

ANNOUNCEMENTS.

Hon. Z. F. SMITH, of Henry county, is a candidate for Superintendent of Public Instruction.

DR. H. A. M. HENDERSON, of Bourbon county, is a candidate for re-election to the office of Superintendent of Public Instruction.

THE conventions held on last Saturday and Monday, so far as heard from, gives the following vote to date: Governor, Blackburn 499, Jones 199, Underwood 177, Lindsay 21. Lieutenant Governor, Cantrell 337, Dawson 63, and several scattering votes. Attorney General, Hardin 480, Moss 183, and other scattering votes. Auditor, Hewitt 408, Smith 307, Boyd 67, Superintendent, Henderson 203, Hall 103, Pickett 169, and other scattering votes. Register, Sheldon 176, Boyd 135, Marcus 130, and several scattering votes.

The Breathitt war is over and the soldier boys have returned. Jason Little, for wife murder, and Alfred Gambrel for complicity in the murder of Judge Burnett, were each sentenced to the Penitentiary for life. Judge W. L. Jackson, of Louisville, and Maj. W. R. Kinney, Prosecuting Attorney, faithfully discharged their duties. Lawlessness is at a fearful discount in Breathitt now. "So mote it be" for all time to come. Too much praise cannot be bestowed on Governor McCreary for his promptness in bringing such disgraceful proceedings to a speedy end.

We see that the National Greenback party in convention at Morgantown, Butler county, presented the name of our friend, Wm. Ward, as a suitable candidate for Auditor. We feel gratified at this prominence given him, and the just and merited compliment bestowed. He is a young man of pleasing address—fluent speaker, and would make an energetic and creditable canvass and a good officer. We had been expecting that this county would be given one of the candidates on the State ticket and would not have been surprised to see the Hon. B. L. D. Guffey selected for Governor or Wm. Ward for Attorney General or Auditor. Each are well qualified and their services and the position of their county entitles them to recognition.

TODD COUNTY.

The same apparent dullness exists in our midst with little or no progress in the building up of the town, no energy, no enterprise, in fact no "get up" about the citizens to improve. With the exception of one building, being erected by our townsman, M. Rowe (formerly a citizen of your place) there is no building going on or improvements of property here. There is plenty of capital to engage in it, and always demand for houses, by good and paying tenants, and why some one does not invest his means in

building houses and improving the town, I cannot for my life conjecture, instead there seems to be an apathy in that respect unaccountable.

Our city fathers have concluded to repair the public scales on the square and will have them in a few days ready for use.

There has been built (or rather repaired) a fence around the court-house square. Thanks to Jailer Miller.

Elijah Smith, the venerable father of our late distinguished townsman, Samuel E. Smith, now of Lamasa, (near Evansville,) died on yesterday morning at his residence, near Paradise, of paralysis. He was stricken on Sabbath last, and lived until yesterday. He was a kind hearted man, a good neighbor and useful to his neighborhood, and will be missed. Friends and neighbors sympathize with the bereaved ones at their great loss.

Mat Dixon, of Evansville, and Harry Bridges, of Louisville, in the interest of the houses they represent, were in town this week. Harry looks depressed from some cause or other, for what I know not, and leave the curious to guess.

There was a sale by J. W. Feighan, assignee in Bankruptcy, of various pieces of real estate belonging to Bankrupts, here yesterday, the property brought low figures, viz.: 185 acres of land on O. & R. Railroad; coal shaft 140 feet deep, engine, boiler and side track sold for \$851. 165 acres situated one mile below South Carrollton on Green river, with coal shaft, engines, houses flats or docks, and in workable order, \$1,500; and several other tracts not so valuable.

The Funding Board created by an act of the last Legislature for the purpose of funding or compromising our bonded indebtedness, held a meeting last Tuesday, which I understand was a boisterous one, with a failure to reconcile the various conflicting views of the members, and without coming to any agreement in regard to the matter adjourned to meet again, upon the call of the president of the board. It is understood that it is a final adjournment. As predicted, they have accomplished nothing, and now you find persons as the old woman said, when her husband told her the cow had eaten the grind stone, "I told you so." There never was much expected of the board. I do not mean to say they were not honest, competent and well meaning men, but I do mean to say that they were never impressed with the importance of the position they occupied, and were too much governed by outside pressure and by foolish pledges made prior to their election in it substance say "We wish to make things quite lively about that time:

The July term of Common Pleas Court promises to be an exceedingly interesting one. Together with the numerous suits for slander, damages, etc., continued from the January term, the following ones of the same character, which have been filed in the Circuit Clerk's office, will have the effect of making things quite lively about that time:

Nicholas Simms vs. C. L. Morehead, perjury; ten thousand dollars.

The Rev. Henry Ward Beecher, in his lecture on "The wastes and burdens of society," claims "man's natural life to be 80 years, and as the average life is but 33 years, there must be a waste of 47 years."

There is much of truth in this statement. If a man be unfortunate in business, it is attributed to the violation of some commercial law. Now, if a person be taken off in the prime of life, ought it not to be attributed to the violation of some physiological law? If people only knew better, they would live better and longer; but how can they profit by that which they know not of? The only popular work that meets this great want is Dr. Pierce's Common Sense Medical Adviser. In it the great problems of disease and health are fully discussed. The work contains over 900 pages and 250 colored plates and wood-cuts. Price \$1.50 (post-paid.) Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

DR. BURGESS BUGGED OUT.

At the April term of the Ohio Criminal Court, 1878, Dr. J. F. (June Fly, we suppose) Burgess was indicted for practicing medicine without license. He gave bond for his appearance. At the September term 1878 the case was continued. Last week the surety on the bond being Miles away from the Courthouse, felt a little uneasy and conjectured that the interest of himself and family made it Wright to refuse to be Burgess bound any longer, so he delivered said Burgess up to the proper authorities. Now Uncle Ras has the reputation of being a clean, nice Jailer and always furnishes an inmate with a bed, but as he was positively opposed to having a bed-Burgess, knowing with what rapidity said insect multiplies, he objected, so a forthwith trial was gotten up. The proof disclosed the fact that although he might be a June-Bug, hum-Bug, or what not, he nevertheless had been a medical Pugg long enough before the enactment of the law requiring license to practice, not to need license to roll up the balls, oh, we mean pills, kill and cure promiscuously. So he was set at liberty and plumed his wings and sailed out of Court.

knew better, he did what he did, we guess at the earnest solicitation of Hon. Judge Charles Lawyer Morehead, who got himself into trouble and is anxious to get out and makes desperate lunges that way, which only entangles him more and more." It was not written on Judge Moreheads solicitation nor at his instance, I was done without his knowledge. I have never contended the construction I gave of the section was *law*, but I said "I think Judge morehead at least, (as he thought) had a right to a Grand Jury &c., though he might have been in error." Now in conclusion, say if I was mistaken in the construction of the act and the statute, I was no more in error than you when you say, "why he (meaning the Police Judge) cannot even legally, try a person for a breach of the peace, according to our understanding of the law." If you will refer to session acts, 1878, 1 vol., page 96, you will find sec. 13, Criminal Code, sub. sec. 5 amended, which gives him jurisdiction to try breach of the peace. I have nothing to say in regard to your attack on Judge Morehead, calling him Lawyer Morehead, &c. But I do say he is well versed in his duty, a student, a gentleman and if not a lawyer, will be if application will make one. One other thing and I am done. I fear you have taken to heart the Judge's first communication, and will not soon get over it, but still the town the government over which the Judge presides "still goes on," and peace reigns supreme. The community stands by the Judge, notwithstanding he is abused by the violators of law there and who are always in dread and shrink from investigation of their misdoings.

On Tuesday night of last week, some bold thief, well acquainted herabouts, broke into the Sheriff's office and took about \$35 out of the table drawer. The door of the office was locked, and that of the drawer also. He must have been well acquainted about the premises or else he could not have gotten in so easily. Sheriff Phillips says he would be glad to have his sack containing the silver back, anyhow, and thinks he is certain of getting the silver and sack both, or the thief one.

Same vs. Same, same offense; same amount.—Echo

The Rev. Henry Ward Beecher, in his lecture on "The wastes and burdens of society," claims "man's natural life to be 80 years, and as the average life is but 33 years, there must be a waste of 47 years."

There is much of truth in this statement.

If a man be unfortunate in business, it is attributed to the violation of some commercial law. Now, if a person be taken off in the prime of life, ought it not to be attributed to the violation of some physiological law?

If people only knew better, they would live better and longer; but how can they profit by that which they know not of?

The only popular work that meets this great want is Dr. Pierce's Common Sense Medical Adviser. In it the great problems of disease and health are fully discussed.

The work contains over 900 pages and 250 colored plates and wood-cuts. Price \$1.50 (postpaid.) Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

DR. BURGESS BUGGED OUT.

At the April term of the Ohio Criminal Court, 1878, Dr. J. F. (June Fly, we suppose) Burgess was indicted for practicing medicine without license.

He gave bond for his appearance.

At the September term 1878 the case was continued.

Last week the surety on the bond being Miles away from the Courthouse, felt a little uneasy and conjectured that the interest of himself and family made it Wright to refuse to be Burgess bound any longer,

so he delivered said Burgess up to the proper authorities.

Now Uncle Ras has the reputation of being a clean, nice Jailer and always furnishes an inmate with a bed, but as he was positively opposed to having a bed-Burgess, knowing with what rapidity said insect

THE HARTFORD POST OFFICE.
How Uncle Sam's Interests are Looked After in Our Town—Improvements, Etc.

On last Saturday morning we, by invitation of Judge C. J. Lawton, Post Master, visited the interior of the Post Office here, and were agreeably surprised to find that he had erected a separate and entirely new lot of mail boxes, one for each letter of the alphabet, for the especial purpose of the delivery of the Herald. The Judge remarked that the circulation of the Herald from the Hartford office was so voluminous that it crowded the ordinary mail boxes so that they could not, without great difficulty, handle the mail.

Subscribers who do not have private boxes will please call especially for the Herald on account of its being kept separate and thus always insure getting it. We found the Post Office books, records and everything pertaining thereto in neat nice business-like fix. We also found two attentive, sprightly, young ladies, ready willing, and capable, as assistants to the venerable Post Master. We of course, allude to Misses Maggie Jarvis and Laura Midkiff.

Wildman's New York Comedy Company at Court Hall To-night.

Wildman's New York Comedy Company, are giving a series of entertainments at Court Hall. We had the pleasure of attending Monday night, and must confess our surprise at seeing such an able Company here.

The Charming Society Drama, entitled "A Game of Love," with Miss Clara Wildman, as "Mary Mortimer," was first produced, and rendered in good style and pleasing manner.

Having commenced to receive our new spring stock of goods, and our store house having a limited capacity, we will for the next 30 days sell our goods on hand at and even below cost to give us good room to display the new goods. ROGERS & KING.

SELLING AT COST.

I desire to inform the citizens of Hartford and vicinity, that I am still prepared to do your hauling, and at prices as low as any one else. I return thanks for past patronage and hope to merit a continuance of the same. Hauling done on short notice.

GEORGE W. DAVIS.

To board all day, 50 cents.
And smile whenever you can.

What should you do if tomorrow,
And thus die, if to-day?
For when you have a trial,
You must expect to pay;
It is a good old maxim,
Which should be often prided—
Don't cross the bridge before you
Cross the bridge is reached.

You should be always mirthful,
If you would have a trial;
The thought that good and evil
Are always here combined;

There must be something wanting,
And though you roll in wealth,
To smile whenever you can.

That precious jewel—health.

And though you're strong and sturdy,
You should have a trial;
Which is harder to bear;
But whether joy or sorrow,
Fall on your mortal span,
Fall make your pathway bright;
To smile whenever you can.

A few words on Female Education.

[From the Practical Teacher.]

Give your daughters thorough education. Teach them to prepare a nourishing diet. Teach them to wash, to iron, to darn stockings, to sew on buttons, to make their own dresses. Teach them to bake bread, and that a good kitchen lessens the apothecary's account. Teach them that one dollar is one hundred cents; that one only lays up money whose expenses are less than his income, and that all grow poor who have to spend more than they receive. Teach them that a calico dress paid for fits better than a silk one unpaid for. Teach them that a full, healthy face displays a greater lustre than fifty consumptive beauties. Teach them to wear strong shoes. Teach them to purchase, and to save that the account corresponds with the purchase. Teach them that they gain God's images by wearing strong bodies. Teach them good common sense, self-trust, self-help, and industry. Teach them that an honest mechanic in his working dress is a better object of esteem than a dozen haggard, finely-rassed idlers. Teach them gardening and the pleasure of nature. Teach them, if you can afford it, music, painting, and all other arts, but consider these as secondary objects only. Teach them to reject with disdain all false appearances, and to use only yes or no in good earnest. Teach them that the happiness of matrimony depends neither on external appearance nor on wealth, but on the man's character. Have you instructed your daughter in these principles and have they comprehended these principles? Fearlessly allow them to marry. They will make their way through the world.

Col. C. E. Bowman, of Louisville, has been appointed Commissioner of the Bureau of Agriculture, Horticulture, and Statistics in the place of Col. W. J. Davis, resigned. Col. Bowman will come to Frankfort Monday and begin his duties. His selection for this work is regarded the best that could have been made. He is educated and experienced in the several branches, and will prove accurate and reliable in all the matter he places before the public. He has been a farmer for more than twenty years, and has contributed many able articles to agricultural journals.—[Yeoman.]

The amenities of journalism: "Who wouldn't be an editor?" asks a Western paper, "You wouldn't," replies an exchange, "if you tried a hundred years."

Much important matter and several communications, on account of space, are left out.

A few words on Female Education.

[From the Practical Teacher.]

Give your daughters thorough education. Teach them to prepare a nourishing diet. Teach them to wash, to iron, to darn stockings, to sew on buttons, to make their own dresses. Teach them to bake bread, and that a good kitchen lessens the apothecary's account. Teach them that one dollar is one hundred cents; that one only lays up money whose expenses are less than his income, and that all grow poor who have to spend more than they receive. Teach them that a calico dress paid for fits better than a silk one unpaid for. Teach them that a full, healthy face displays a greater lustre than fifty consumptive beauties. Teach them to wear strong shoes. Teach them to purchase, and to save that the account corresponds with the purchase. Teach them that they gain God's images by wearing strong bodies. Teach them good common sense, self-trust, self-help, and industry. Teach them that an honest mechanic in his working dress is a better object of esteem than a dozen haggard, finely-rassed idlers. Teach them gardening and the pleasure of nature. Teach them, if you can afford it, music, painting, and all other arts, but consider these as secondary objects only. Teach them to reject with disdain all false appearances, and to use only yes or no in good earnest. Teach them that the happiness of matrimony depends neither on external appearance nor on wealth, but on the man's character. Have you instructed your daughter in these principles and have they comprehended these principles? Fearlessly allow them to marry. They will make their way through the world.
